

JAY[®]

FUSION[™]

- ≡ All the pressure relief and positioning you expect with added comfort

JAY® FUSION™ CUSHION

≡ The JAY Fusion is an adjustable cushion designed for skin protection and features JAY Flow fluid or ROHO DRY FLOATATION™ air inserts in a package that's comfortable, stable and supportive. It incorporates the stability of the J3 cushion with the pressure management of J2.

Simple to Fit and Order

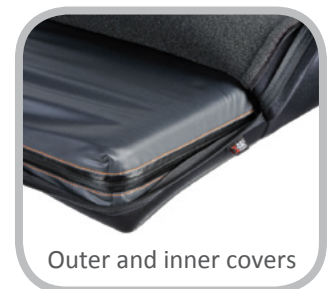

- Well size based on anthropometric data and sized for cushion width
- Available with air or fluid bladders
- Available in multiple sizes from as small as 14"
- Smart part numbers make ordering easy

Multi layered foam base

Innovative Design Technology

- Multi layered base provides positioning while ensuring comfort
- Soft upper base foam and well fits user comfortably and effectively throughout entire cushion surface
- Incontinent resistant inner cover with Aquaguard™ moisture resistant zipper
- X-static® Anti-Microbial outer cover fends off bacteria and associated smell

Outer and inner covers

Complements Jay Cushion Portfolio

- Base shape and material provides stability and postural support while also providing comfort
- Your choice of Fluid bladder or Air bladder provides required pressure relief
- Jay Fusion provides balance of pressure relief and postural support

Anti-microbial silver thread
